

## Maths Week Daily Problems:

Download, reprint and cut these up for quick time fillers that you can do with your class. Probably more suited to upper KS1 and KS2.

Create your solutions, snap us a picture and send it to [lifesavers@jff.org.uk](mailto:lifesavers@jff.org.uk). We will post the best ones on our website! **(we will accept entries until the 15<sup>th</sup> December!)**

## Coins in a Row

Take five coins: 1p, 2p, 5p, 10p, 20p.

Put them in a row using these clues.

- the total of the first three coins is 27p
- the total of the last three coins is 31p
- the last coin is double the value of the first coin

## Coins in a Row

Take five coins: 1p, 2p, 5p, 10p, 20p.

Put them in a row using these clues.

- the total of the first three coins is 27p
- the total of the last three coins is 31p
- the last coin is double the value of the first coin

## Coins in a Row

Take five coins: 1p, 2p, 5p, 10p, 20p.

Put them in a row using these clues.

- the total of the first three coins is 27p

- the last coin is double the value of the first coin

## Queen Cynthia's coins

Queen Cynthia had 20 gold coins. She put them into four piles.

- The first had four more coins than the second
- The second had one less coin than the third
- The fourth had twice as many as the second

**How many coins did Queen Cynthia put in each pile?**

## Queen Cynthia's coins

Queen Cynthia had 20 gold coins. She put them into four piles.

- The first had four more coins than the second
- The second had one less coin than the third
- The fourth had twice as many as the second

**How many coins did Queen Cynthia put in each pile?**

## Stamps

Tom's Parcel cost 55p to post

He stuck eight stamps on it.

Each stamp was either 10p or 5p

**How many of each stamp did Tom stick on his parcel?**

## Stamps

Tom's Parcel cost 55p to post

He stuck eight stamps on it.

Each stamp was either 10p or 5p

**How many of each stamp did Tom stick on his parcel?**

## Bags of Money

Ada divided 15 pennies between four bags

They could then pay any sum of money from 1p to 15p without opening any bag.

**How many pennies did Ada put in each bag?**

## Bags of Money

Ada divided 15 pennies between four bags

They could then pay any sum of money from 1p to 15p without opening any bag.

**How many pennies did Ada put in each bag?**

## Fishy Finances

A Goldfish cost £1.80

An Angel fish costs £1.40

Matteo paid exactly £20 for some fish.

**How many of each kind did they buy?**
